

Dissection Portfolio

Guidelines for Completion

General Format

- ½” – 1” 3 ring-binder
- Page protectors (approximately 11 if photos are inserted back to back)
- Photos MUST be in colour, not blurry, and sized 4 x 6
- Your name must be present in each photo (as proof it was your dissection)
- Photos taped or glued onto BLANK paper (no tape or glue on top of picture)
- Paper must be oriented in portrait style (up and down)
- Labeling lines should not cross each other, and should only occur to the right, left and bottom of the photo
- Labeling lines are NOT to have arrows at the end
- Words should be written at the end of a line NOT on top of it
- Lines and labels done in pen (blue or black preferred)
- The number of photos indicated in this guide is the **minimum** required. If more are required to see all labels just indicate the additional photos in your “Table of Contents” and title appropriately.
- **BONUS marks** will be given to students who complete portfolio digitally.

Hints for Perfect Completion

1. Take LOTS of pictures... full length, close ups, flash/no-flash, etc.
2. Check your photos with the marking guide BEFORE you clean up. All parts MUST be visible for full marks.
3. KEEP all parts of the pig or ASK if they can be disposed of.
4. Don't PROCRASTINATE completing each part. It is overwhelming to complete it all at the end!
5. Make a ROUGH DRAFT and ask teacher to look over it prior to using permanent marker on your photos or printing it out.
6. Hand each piece in ON TIME so even if you make a mistake, you have the opportunity to fix it.
